### Re: Donation to the Coventry Kidney Fund

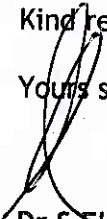

I wish to write and thank you and the members of the Sikh Union Club and your families for the recent trouble and effort you took for a sponsored walk to raise £500 for kidney research here in Coventry.

Dr Higgins is leading a team undertaking pioneering work in the field of kidney transplantation. The results of his work has already improved significantly the safety and long term results for those patients receiving kidney transplant. The money raised by the Sikh Union Club will continue to help fund ongoing research.

Once again may I thank you and all the families involved in this fund raising event. I can assure you that the monies raised will be put to good use developing better pathways of care and treatment for patients with kidney failure.

Kind regards

Yours sincerely

  
Dr S Fletcher, BSc MD FRCP  
Clinical Director for Renal Services

Chief Executive: Martin Lee

Chairman: Philip Townshend
